Education

Charotar University of Science and Technology

Bachelor of Technology in Computer Science and Engineering; CGPA: 7.95

September 2023 – May 2026

Anand, Gujarat

Experience

Creatique Technologies Private Limited

Salesforce Developer Intern

- Gaining hands-on experience in Salesforce Administration through Trailhead challenges and practical tasks.
- Working on various Salesforce admin activities such as Lightning app creation, custom objects, fields, relationships, automation processes, data security, reports, and dashboards.
- Contributing to a live project for Mangalam Worldwide, applying Salesforce concepts in a real-world environment

Mamo TechnoLabs LLP

PHP Developer Intern

- Constructed two responsive websites (ForeX4U and SkyTrans) using PHP 8.1, HTML, and CSS, delivering ahead of schedule.
- Contributed to feature documentation to enhance clarity and improve cross-team understanding.
- Learning and Understand the SEO by creating a report on the Current Projects.

May 2024 – June 2024

Vadodara, Gujarat

Relevant Projects

Mangalam Worldwide | Salesforce Project (Sandbox)

Aug 2025 – September 2025

- Based on functionality and business needs, designed automation flows like Record-Triggered Flows, Screen Flows, and Scheduled-Triggered Flows.
- Built custom objects and fields, created validation rules and formula fields, and optimized page layouts to enhance data organization and user experience.
- Created PDF generation using Visualforce pages and Apex controllers, making sure that the org's data was retrieved correctly and the PDF output was smooth.

BVC | Apex, Change Set

Oct 2025 – October 2025

- Used Change Sets to support the BVC project by carrying out end-to-end deployments across environments (Sandbox DEV → UAT → Production).
- Establishing user roles, constructing the role hierarchy, allocating permissions, and making sure the pre- and post-deployment stages are completed.
- Created and executed Apex test classes to validate functionality, ensure required code coverage for the deployment.

Certifications and Achievements

- Lead a Team to 2nd Runner-Up Position, SAP GTU-Code Unnati Innovation Marathon 3.0.
- Completed 74+ Trailhead Badges module challenges.
- NPTEL – Database Management Systems (DBMS) & Blockchain & Applications.
- Bharat Blockchain Yatra – Workshop Participant
- Certification of SAP Code Unnati Advance Course (ML, DL, IOT, Computer Vision).
